PROJECT DOSTI · PUBLIC PANEL · CEU VIENNA

Indus Waters Treaty

DATE	VENUE	TIME
23 November 2026	CEU Auditorium	6:00–7:30 PM CET

A river that sustains hundreds of millions of people. A treaty signed in 1960. A climate nobody planned for.

The Indus Waters Treaty has survived wars. Can it survive glacier melt, failing monsoons, and frozen diplomacy?

Join a panel of international lawyers, climate scientists, and peacebuilders to examine how climate change is rewriting the rules of water security between India and Pakistan, and what comes next.
