Resources for Data Dashboards

In addition to bridging the knowledge gap between research and policy, one of Delta 8.7's key mandates is expanding the evidence base on "what works" to achieve Target 8.7 of the United Nations Sustainable Development Goals. For this reason, the interactive global dashboard, much like all 193 Member State country data dashboards, serves to highlight the multi-dimensional global measures, efforts and policies as well as publicly available data on forced labour, modern slavery, human trafficking and child labour. In an effort to fulfil this mandate, presented below are inclusive resources that can be used as reference for the publicly available data showcased on all Delta 8.7 data dashboards.

Below are listed the sources from which all dashboards were created:

Measuring child labour
- Understanding Children's Work Project (UCW), comprised of:
- Statistical Information and Monitoring Programme on Child Labour (IPEC-SIMPOC) surveys
- The Living Standards Measurement Study (LSMS) surveys
- UNICEF Multiple Indicator Cluster Surveys (MICS)
- ILO Conventions on child labour
- International Conference of Labour Statisticians (ICLS)
- Global Estimates of Child Labour: Results and trends, 2012-2016

Measuring forced labour
- Global Estimates of Modern Slavery: Forced Labour and Forced Marriage
- Hard to see, harder to count: Survey guidelines to estimate forced labour of adults and children
- Global Estimates of Modern Slavery

Measuring human trafficking
- UNODC's Global Report, Annex I: Methodology and data coverage
- UNODC's Multiple Systems Estimation for estimating the number of victims of human trafficking across the world
- UK Home Office's Modern Slavery: an application of multiple systems estimation
- National Referral Mechanisms: Joining Efforts to Protect the Rights of Trafficking Persons, A Practical Handbook
- IOM's Counter Trafficking Data Collaborative (CTDC)
- UNODC's Human Trafficking Knowledge Portal: Case Law Database
- Global Report on Trafficking in Persons 2020

Measuring social protections
- Profits and Poverty: The Economics of Forced Labour
- Quick Guide on Sources and Uses of Labour Statistics
- ILO STAT
- SDG indicator metadata

Measuring government response

- Walk Free's Government Response Assessment
- Walk Free's Measurement, Action, Freedom

Measurement of related issues

- Human Development Report 2019: Technical notes
- ILO paper on Labour Productivity
- ILO paper on Occupational injuries
- ILO's Proportion of migrants employed in vulnerable employment
- IOM's Combating Trafficking in Persons and Contemporary Forms of Slavery
- UNHCR's Statistical Online Population Database: Sources, Methods and Data Considerations
