

EVOLUTION OF LEARNING SPACES IN THE UNIVERSITY

**UP Diliman's experiences due to the COVID 19 pandemic
Presentation by Carl Michael F. Odulio, Ph.D.**

ProSPER.Net Forum

- There are initiatives of offices and organizations to provide equipment to students even after the pandemic
- UP incorporated the advantages of on-site learning with the evolution of education spaces
- There are various efforts and initiatives to provide internet connection to all spaces not just in buildings
- Infrastructure support is developed while we enforce a new mode of learning

Education Spaces

Evolution

- **Face-to-face:** traditional mode during the pre-pandemic times
- **Distance education:** offered by UP Open University
- **Virtual learning:** pure online learning
- **Blended learning:** varies from f2f and/or synch and/or asynch online, developed in 2020
- **Hybrid flexible or Hyflex learning:** adapts simultaneous f2f and synch online teaching and learning

The university developed online platforms both for learning and administrative processes of offices:

- UTAK (University Transactions Automated Kit) – Travel Authorities, Benefit Requests of Faculty and Personnel, etc
- BULSA (Budget Utilization and Liquidation System Analytics (BULSA) – Budget requests and accounting processes
- PUSO (Personnel Unified Systems Outlook) – Human Resource and Personnel Management system
- UVLE (University Virtual Learning Environment) – Learning Management System in UPD
- TUKLAS (Search. Discover. Create.) by University Library
- CRS – Registration System of Students
