

Call for Participants: Science Slam „SCIENCE4PEACE “

Dresden, 25.06.2024

Dear students, doctoral candidates, and postdocs,

Do you believe that your research will help prevent wars, strengthen democracies, protect people and make societies resilient to war propaganda and cyber war?

Do you enjoy telling others about what you do and are you excited about the challenge of speaking in front of a large audience?

If so, we invite you to present your research project at the Science Slam in

Dresden's Frauenkirche! We welcome applications from a diverse range of disciplines and are keen to learn why your field of research should be nominated for the Nobel Peace Prize.

Apply with your topic as a slammer at SCIENCE4PEACE on November 15, 2024.

With its history and symbolic significance, the Frauenkirche Dresden is the perfect place to launch a conversation about war and peace. Moreover, without scientific research in numerous disciplines, the reconstruction of the Frauenkirche would not have been possible.

Today, the Frauenkirche is a world-famous venue for encounters and a symbol of peace. Amidst the scientific locations of Dresden, we would like to highlight and promote the synergies between science and peace work. Therefore, the Frauenkirche Foundation, the Dresden Technical Collections and the Institute of the United Nations University UNU FLORES jointly invite you to the third SCIENCE4PEACE-SLAM.

As a slammer, you are given precisely ten minutes to inspire the audience with your questions, insights and discoveries. It is worth being creative, entertaining and humorous, because the audience decides who wins after all!

Impress the audience with your way of demonstrating complicated scientific issues. In addition to a lifetime of honor, great awards and an unforgettable evening under the dome of the Frauenkirche await all participants and especially the winner.

Take part in SCIENCE4PEACE on November 15 at 7:30 pm in the Frauenkirche Dresden.

We are happy to sponsor train and accommodation spending. If you feel more comfortable presenting in German – von uns aus gerne!

To register or for further information, please simply write to:

Andreas Dieterich: adieterich@frauenkirche-dresden.de or to

Atiqah Fairuz Salleh: b.m.salleh@unu.edu or to

Roland Schwarz: roland.schwarz@museen-dresden.de.

Registration as a slammer is now open until September 6, 2024.

With best regards

Andreas Dieterich
